

In the Specification:

Please replace paragraphs [0021], [0022], [0025], support being found in FIGS 3 and 4, by rewriting the same as follows:

“[0020] Referring now to FIGS. 3 and 4, the present invention includes a releasable attachment device 26 or releasable attachment device 50 formed integral to the bracket 30. The integral attachment device 50 includes a threaded portion 44 formed integral to the bracket 30 configured to accept a threaded shaft 52 with a handle 58. The threaded shaft secures through a spacer 54 and lock washer 56. Securing is accomplished by turning handle 58 to secure the threaded shaft 52 adapted to fit into threaded portion 44 until locking collar or lock washer 56 engages the assembly.”

“[0022] Referring to FIG. 4 the securing means includes a bolt 52, integral nut 44, spacer 54 or lock washer 56, and handle 58.”

“[0025] Therefore, the foregoing is considered illustrative of the principles of the invention and is a description of the disclosed embodiments to enable any person skilled in the art to make or use the present invention. Various modifications to these embodiments will be readily apparent to those skilled in the art, and the generic principles defined herein can be applied to other embodiments without departing from the spirit or scope of the invention. It is therefore desired that the present embodiments be considered in all respects as illustrative and not restrictive, reference being made to the appended claims rather than the foregoing description to indicate the scope of the invention.”
